

TERMINATION OF COAL STRIKE NOT SETTLEMENT BUT VICTORY FOR GOVERNMENT, PALMER SAYS

Men and Officers Complied With Demands and Went to Work, Attorney General Declares.

APPEARS BEFORE SENATE

John T. White, Former President of C. M. W. A. and Rembrandt Peale, Independent Coal Operators (a Bo on the Presidential Wage Commission.

By Associated Press. WASHINGTON, Dec. 19.—Termination of the soft coal strike was not a settlement but a victory for the government, Attorney General Palmer today told the Senate sub-committee investigating the strike.

"The government has won its fight," Mr. Palmer said. "There was no settlement in actuality; the men and the union officers have complied with our demands and returned to work."

Mr. Palmer said Department of Justice action in the coal strike began with the preparation of injunction proceedings against officials of the miners' union under the Lever law. "We sought to prevent the strike," he said, "by enjoining the officers from carrying on the strike they had already ordered."

"You have never changed your mind that the strike was a breach of law," Senator Townsend, Michigan, inquired.

"I never have," Mr. Palmer returned. "The injunction was issued and is still in effect."

WHITE AND PEALE TO BE ON WILSON COMMISSION

WASHINGTON, Dec. 19.—The presidential commission to investigate wages and prices in the bituminous coal industry will be appointed today, but it will not begin work until after the Christmas holidays, Mr. Palmer explained. The commission could not start its inquiry until official reports showing that the miners had returned to work were in hand.

John T. White, former president of the United Mine Workers of America, and Rembrandt Peale, an independent coal operator of Pennsylvania, will be named members of the commission of three which will investigate wages and prices in the bituminous coal industry, according to unofficial reports today.

President Wilson is expected to name the commissioners during the day. Both Mr. Peale and Mr. White assisted Fuel Administrator Garfield during the war.

GAS GUSHER COMES IN WITH 25,000,000 FEET; CATCHES FIRE; TWO HURT

Derrick of Lamp-Aid Well Destroyed and Residence Adjoining Burned

McKEESPORT, Dec. 19.—While workmen at the Lamp-Aid well in the Snake Hollow district were drilling a new prospect deeper yesterday afternoon the flow, which was about 25,000,000 cubic feet, caught fire, the gas shooting over 100 feet into the air. Two men were injured. The derrick was soon destroyed and the fire spread to the home of Mrs. Mary Peck, an adjoining lot, which was also completely ruined before firemen from McKeesport arrived on the scene. The loss is estimated at \$5,000.

For a time fear was feared the blaze would reach another well but 100 feet away, but the drillers and other employees immediately played a stream of water on the derrick, the water freezing, thus preventing sparks from igniting the other derrick.

J. E. Brown, aged 30, and Curtis Smith, aged 31, both of Butler, were burned slightly on the hands and face. They were employed as tool dressers at the Lamp-Aid well. After receiving medical attention at the McKeesport hospital, they were taken to their homes in Butler.

No effort was made last night to extinguish the fire. It was stated that dynamite would be used today to cut the flames at the mouth of the well.

Scores of persons, including a half dozen women, were present when the fire broke out. The well was expected to be a record-breaker and many McKeesporters were anxious to witness the big flow.

The big natural gas well at McKeesport which took fire yesterday just after the drill penetrated the sand was still burning this afternoon. The gas pressure had increased and flames were shooting much higher into the air than during last night. Five large boilers were being burned to cut off the flow from the upsurging volume of gas, and thus extinguish the blaze. There was no wind and nearby property was not endangered. Crowds of people stood in the cold and snow and watched the unusual sight.

To State Convention. Superintendent Stanley P. Ashe of the Connellsville schools and Principal Bela B. Smith of the high school are preparing to attend the annual convention of the Pennsylvania State Educational Association at Philadelphia, beginning Monday, December 23.

CHARGE DETZER WITH STEALING SAVINGS OF A CRIPPLED SOLDIER

Knocked Down, Sergeant Says He Came to and Saw M. P. Going Through His Pockets.

NEW YORK, Dec. 19.—A charge that Captain Karl W. Detzer, in charge of criminal investigation work at Le Mans, France, had taken half of 5,100 francs, stolen from him while a prisoner at the barracks of the 308th Military Police Company, was made yesterday by Murray P. Phillips of this city, crippled for life by 12 wounds received at Chateau Thierry and in other battles.

Phillips, formerly regimental sergeant in the American ambulance service, made this charge while testifying at Captain Detzer's court martial on Governor's Island on charges of brutality to members of the American Expeditionary Force arrested by Detzer.

Phillips, who limped into court, testified that while in Le Mans on furlough, hobbling around on crutches, he had been "picked up" by Captain Detzer's men and taken to D. C. I. headquarters. He said that while he was attempting to answer a question as to what he had been arrested for, Detzer struck him. He declared that his crutches slipped, his injured leg hit the wall and he fell in a faint.

When he came to, he said, he saw a sergeant going through his pockets, taking 5,100 francs. He explained that 2,000 francs represented back pay and the rest was money won by gambling. He said that since coming to Governor's Island, he had recognized U. S. Madden of Pittsburgh, once a member of the Pennsylvania state constabulary, as the sergeant who had robbed him. Madden, with Sergeant Frank L. Hoyt, a deserter in France, faces charges of cruelty similar to those preferred against Detzer.

Phillips declared that Detzer was in the room when he was robbed and that the sergeant had handed at least half of the money to his superior. He said at that time he was too helpless to protest, but that later the sergeant had handed him 100 francs and put him in the police barracks. Phillips testified he had registered a complaint with a hospital captain named McEvane, who he said had forwarded a report to General headquarters.

"I took a new turn when I met Madden of Le Mans," Phillips testified. He was serving a year's sentence on Governor's Island because of a false confession of larceny which he said had been obtained from him by "Lieutenant Marlow, assistant to Captain Detzer."

APPEALS TO WILSON

Congressman Olney Asks Him to Proclaim Demobilization Complete.

WASHINGTON, Dec. 19.—Representative Olney of Massachusetts called at the White House to urge President Wilson to proclaim demobilization immediately with a view to lifting the war-time prohibition ban. Mr. Olney said his request was based on completion of demobilization, that the Supreme court in upholding the validity of the war-time law virtually had invited the President to proclaim demobilization and that it was the intention of Congress to give the light interests one year before constitutional prohibition in which to dispose of their stocks.

Former Senator James Lewis of Illinois said he intended placing his views before the President in a written memorandum. Mr. Lewis said he thought the question of what is an intoxicant should be left to the individual states to determine.

43 DROWN WHEN FREIGHT STEAMER GOES DOWN AT SEA

Wireless Picked Up at Halifax Tells of Loss of British Ship Maxman.

SURVIVORS ARE PICKED UP

By Associated Press. HALIFAX, Dec. 19.—Forty-three members of the crew of the British steamer Maxman were drowned yesterday when their ship foundered in mid-ocean, according to a radio from the British steamer British Isles, picked up here today. The message said among those lost were the captain, first mate, fourth engineer and wireless operator. The rest of the officers were saved.

The radio did not state how the men lost their lives but it is presumed they went down with their ship, though there is a possibility they may have had time to take to the boats and that these capsized.

GOVERNMENT TAKING STEPS TO CHECK RISE IN COST OF CLOTHING

Manufacturers Will Be Urged to Devote Plants to Goods Average Man Can Afford.

WASHINGTON, Dec. 19.—Steps to check the rising price of clothing will be discussed at a conference here in January of persons interested in the production of wearing apparel, from the producers of raw material to the consumer of the finished product. The calling of the conference was announced by Assistant Attorney General Figg who said that in addition to effecting economies in operation, it was planned to provide for the production of standard quality cloth and garments for sale at a reasonable price as an inducement to the public to check extravagance in purchasing.

Suggestions for the conference came from producers of raw material, the producers of finished goods, the personnel of which will be announced after the Christmas holidays. The announced clothing unions will be represented at the conference.

It was generally agreed among producers that one essential for reducing the cost of clothing was to have manufacturers devote their plants to necessities, meaning the type of clothing purchasable by the average man. Some clothing makers were said to believe that men's suits sold for \$55 retail could be sold at \$35 if the \$20 difference could be worked out among mills, manufacturers and retailers where by a certain percentage of business could be devoted to goods of standard quality to be turned out in quantities.

There is no intention to design a "uniform" for the public, Mr. Figg said, and standard goods under consideration would be standard in quality rather than pattern.

PACKERS WILL DISPOSE OF ALL THEIR SIDELINES

Must Hereafter Confine Themselves Strictly to the Meat Business.

STOCKYARDS TO BE SOLD

By Associated Press. WASHINGTON, D. C., Dec. 19.—The five big Chicago packers will dispose of all interests controlled by them except those directly allied with meat packing, under an agreement reached with the Department of Justice for the settlement of the anti-trust suits against them.

All stock yards owned by the packers will be sold under the approval of a United States court to whoever desires to purchase them.

The packers will be enjoined forever from engaging in the stock yards business, in the ownership of stock yard terminals, market newspapers, cold storage warehouses, the retail meat business, and all unrelated activities under the agreement announced late today by Attorney General Palmer.

The decree will prevent the use of transportation facilities of the packers for any purpose except the meat business. Government officials regard the decree as so complete that it will remove permanently any danger of the packers monopolizing the dinner table of the average American, inasmuch as the packers will be forced to retire from their domination of the markets and transportation systems.

Under the decree the packers also must retire from their large canning business, which included valuable properties on the Pacific coast for the canning of fish, vegetables and fruit. The agreement between the government and the packers stipulates that nothing in the decree shall prevent their continuance in the handling of butter, eggs, cheese and poultry.

Two years is the final limit given for the packers to dispose of their outside interests.

WILL PRICES GO UP OR DOWN? PEOPLE WORRY

FRIDAY EVENING, DEC. 19, 1919.

HELPING IN THE CENSUS.

The appeal Dr. P. P. Claxton, United States Commissioner of Education, makes to teachers, school officials and school children to aid in making clear the objects and purposes and the importance of taking the census, which begins January 2, should receive prompt and willing response.

To comply with request to the extent Commissioner Claxton hopes will be done, two very excellent ends will be served. In the first place, giving the people a correct understanding of why the inhabitants are enumerated every ten years will make it easier for the census takers to procure the necessary information. Only slightly less important will be the results obtained from having conveyed to the school children and their elders a more intimate knowledge of the operations of an important department of the government. Even among those who have passed beyond childhood's years there are many who have but a vague idea of what a census really is. Through ignorance, and sometimes with an intent to deceive, many persons, particularly those of foreign birth or parentage, have gained the impression that collecting census information is preliminary to an increase in taxation for some ulterior purpose. The object of Dr. Claxton's request is to enlist those who are correctly informed in assisting to remove much misconception.

"The schools," says Dr. Claxton, "can assist materially in quieting the unfounded fears. It is, therefore, earnestly hoped that school teachers will see the opportunity presented them as public servants who come in contact with large numbers of people to correct any erroneous opinions about the census. It is no less earnestly hoped that school children will convey to their homes the information that taking the census is a gigantic task that can only be successfully carried out if all the people cooperate by giving the census enumerator correct and complete answers to all questions."

Inducting school children to be helpful in this direction will be adding to the knowledge they gain from books some valuable lessons in the practical duties of good citizenship to attain which is, after all, the supreme object to be gained by education.

The "trust busting" campaign against the packers seems to have reached the game stage whereby the Standard Oil and the American Tobacco companies were made still more secure in control of their respective lines. This may suit the purposes of the Department of Justice. It certainly does not displease the packers, there you see. The consumer will still pay the freight.

Scott's Branch of the Red Cross is a model for industry as well as an acceptor of good work.

Connellsville very cordially welcomes Unlabeled Investors in our county and enterprises. They are to be congratulated upon their discernment and good judgment.

An early duty of the new council after organization will be to revolutionize the sanitary equipment of the city jail.

William Jennings Bryan who complained that "we" and "they" were taking grape juice to show willing to compromise the treaty reservations by taking the League peace proposal unadvised. Of course the White House will have to "make it the same."

Just Folks

By A. G. Galt

DO THE BEST YOU CAN.

When you've done the best you can, face the outcome as a man. If you've kept your record true, failure leaves no stain on you. If you've fairly fought to win, the last return was in. You may keep your head erect. You've done all that man expects.

Life demands no price of gold. When your story shall be told, Nor does God condemn your soul To attain some far-flung goal. Men have bravely fought and died, Wishing all for which they died, And yet grieved on high By the deeds they dared to try.

Not by victory alone Is man's earthly glory shown; He who does the best he can Has fulfilled his Maker's plan. This is all life asks of you: That you keep your record true; That you do not sell your soul, Or play false to reach your goal.

Work and wait and face the fray With such courage as you may. Fight for truth with all your might, Give your utmost for the right, And then fall or even die, And be glad you dared to try. For you quit this life a man, And you leave the best you can.

**Why a miner should not wear a leather shoe at work**

LEATHER isn't water-tight. That means cold, wet feet, often long hours of it. It sometimes means catching cold and getting sick.

Leather wears out quickly when it's water-soaked. That means you're wasting your money when you wear a pair of leather shoes at work.

A rubber shoe, as comfortable as leather, yet absolutely water-tight—that's the U.S. Bootee. Get a pair of them before you start work tomorrow.

Every pair of U. S. Bootees is backed up with extra thicknesses of pure rubber

and good strong fabric where the wear is hardest, at just those places where rubber shoes are likely to leak first.

And they've got real comfort built in—made with plenty of room at the toes, and shaped so as not to rub up and down at the heel.

Go to the store and see for yourself the wonderful U. S. Bootee, made for miners—the high with six eyelets, the low with four.

Ask for U. S. Rubber footwear—it means solid wear and long service for your money.

"U.S." Bootee—comes in two heights, 6 eyelets and 4 eyelets; all sizes, white, red and black.

FOR FARMERS, TOO

Built especially to stand up under hard use in mines—the hardest possible kind of wear—the U.S. Bootee and the U. S. Boot are now being adopted by farmers everywhere who know the value of sturdy, comfortable rubber footwear.

Ask for "U.S." RUBBER FOOTWEAR

MOUNT PLEASANT BIDS FAREWELL TO REV. RALPH R. SCOTT

Special to The Courier.

MT. PLEASANT, Dec. 19.—At a union farewell service held by the Ministerial association for Rev. Ralph R. Scott of the United Presbyterian church, who leaves soon after the first of the year for Egypt at the church last evening. Rev. J. E. Hartman pastor of the Re-Union Presbyterian church, suggested the organization of a local Federal church composed of the United Presbyterian, the Reformed church, both now vacant, and the Presbyterian church, on a plan by which each might maintain its present denominational status and yet for every local purpose operate as a single congregation. He stated his conviction that such a union would make for greatly increased efficiency in the service of the community. He further agreed to resign the pastorate of his own church if such a federation be effected in order that the new church might be free to choose the best man available for the pastorate from one or another of the denominations represented.

Why Have Ugly, Itchy Pimples?

Simple Prescription Gives Instant Relief. Makes Blemishes Easy.

In New England, where Bronchitis, Asthma, Bronchitis and other diseases of the throat and lungs are so prevalent, remarkably successful results are being reported following the use of a new form of treatment known as Oxidase, a physician's prescription. Oxidase is a harmless but powerful combination of curative essential oils concentrated and compressed into a small tablet. One of these tablets simply dissolved before going to bed seems to have the effect of releasing the muscular constriction of the bronchial tubes, opening up the air passages and regulating spasmodic lung action. This enables the patient to breathe easily and naturally, while, at the same time, to get a comfortable night's sleep. So much interest has been shown, that local druggists, including A. A. Clarke, have secured a small supply and state that they are authorized to refund the money paid for the first package if in any case this medicine fails to give relief. Oxidase is pleasant to take, contains no harmful, habit-forming drugs and is not expensive. This makes their test an easy matter.—A.D.

OHIOPILE, Dec. 19.—Mrs. E. C. March spent Thursday shopping in Conneltsville.

Miss Anna Nicholson was a shopper in Conneltsville, Thursday.

M. Wilding was a Uniontown business visitor yesterday.

Clark Tressler spent Thursday in Conneltsville.

Mrs. Newlin Burnworth and granddaughter, Virginia, have returned home from a three weeks' visit in Cumberland, Maryland and Ellerslie, Md.

Mr. Torrence of Scottsdale was a caller here yesterday.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water, sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply. He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days. Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Four cheese-quarters of an ounce of Mentholized Arcline into a pint bottle, then fill the bottle with water that has been bottled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keep the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcline in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

ALMOST LIKE MAGIC

Indigestion, Weakness and Sore Chest Disappear Almost Like Magic After Taking Chasco-Vin.

"Ever since I had the 'flu' I have been troubled with indigestion, weakness and a sore chest. These conditions hung on so long I was worried, but when I started taking Chasco-Vin they began to disappear. In fact I now enjoy my meals. My strength is back and I feel better than for years. It seems like only doing my duty to recommend Chasco-Vin."

Sure Relief

The Gift to One that All Enjoy

The gift supreme is one that the proud possessor can let others enjoy. Such is the Brunswick phonograph. And for that reason it is probably the most practical of all—especially at Christmas.

The Method of Reproduction

The Brunswick Method of Reproduction is exclusive, scientific, simple. It does not require an expert to appreciate the color, charm and exquisiteness it gives to tone. It opens up a heretofore limited world of record music.

The Brunswick

On The Brunswick any make record can be played at its best. These marvelous accomplishments are made possible by two patented features that constitute the Method of Reproduction. They are the ULTONA and the TONE AMPLIFIER.

The ULTONA—plays all records, true, finer, sweeter. It is not a makeshift contrivance but involves a genuine principle of sound. A slight turn of the hand presents the right needle, diaphragm and weight for playing any record.

The TONE AMPLIFIER—is an oval shaped vibrant tone chamber. Like the sounding board of a fine piano or violin, it is made entirely of wood and free from metal. Thus it gives the requisite tonal volume and eliminates all harsh, thin, metallic sounds. It meets all advanced acoustical and musical laws.

Shop Early—Shop Here.

Those desiring to purchase their phonographs by comparison can save many steps by coming here. We have every facility for giving the widest range of choice. With The Brunswick as the super-instrument for your guide you'll surely be right in your selection. The phonograph you want is here.

Has He Found a Cure for Asthma?

Simple Treatment Clears Skin Quickly of All Unpleasant Eruptions.

For several weeks past A. A. Clarke has done a big business and made lots of friends simply by recommending and selling HOKARA—a skin healer that has miraculously aided many Connelville people in restoring to them a clear, natural, healthy skin.

HOKARA by its antiseptic healing qualities has been found to correct quickly all minor skin troubles such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet and piles. Ulcers, sores, salt rheum, and even chronic eczema respond readily. There has yet to be found any form of skin disease that HOKARA does not greatly help, and its action is so quick, pleasant and healing that those who have used it are delighted with it. In spite of its unusual healing powers, the price is a trifle. To convince you of its merit A. A. Clarke, druggist, will sell you a liberal sized jar for only 50c. If it doesn't do what it is claimed to do—you can get your money back—Adv.

Mu-col Quickly Destroys Deadly Catarrh Germs

Prove Mu-col Makes Miserable, Dependent Catarrh Sufferers Well Again in Short Time at Trifling Cost.

For Twenty Years Was Advertised Exclusively to the Medical Profession

Here is the only sure way to get rid of Catarrh with all its odorous symptoms

Go to your druggist today and ask for a small package of Mu-col. Dissolve half a teaspoonful of this powerful antiseptic powder in a teaspoonful of warm water and sit till dissolved. Then by sniffing up from the palm of the hand or by using nasal douche allow the Mu-col solution to come into contact with the infected membranes.

You almost instantly feel the effect of its powerful germ destroying properties. It is carried into every nook and crevice of the mucous membrane where the germs thrive and multiply loosening up the congestion and accumulated deposits which if not attended to now, will eventually threaten the existence of the membranes themselves.

For 20 years Mu-col was advertised exclusively to the medical profession. How well it has succeeded in the most severe cases of infected Catarrh conditions of the nose and throat is evidenced by the unstinted praise bestowed upon this truly wonderful discovery by the medical profession. Only after being pronounced a complete success is it offered to the general public and today any first class drug store can supply you—Ad.

End of the world—now since the American Legion Nurses committee has had the time for the world to come to an end extended until after their show. You will get good goods at low prices and a square deal. The good book says: "What does it profit a man if he gain the whole world and loses his own soul? Skin trouble costs many a man his job

No matter how efficient a man may be if he has an ugly skin eruption there are positions in which he cannot be tolerated. He may know that it is not in the least contagious, but other people care little, they avoid him and he must make way for a man with a clear healthy skin. Why run the risk when

Resinol

ointment and Resinol Soap stop itching and clear away eczema and similar eruptions so quickly and easily.

Physicians have prescribed the Resinol treatment over 20 years. Every drug store sells Resinol Ointment and Resinol Soap. For details of the use write to Dr. J. R. Resinol, Baltimore, Md.
